

Make A Moth Mask

Instructions:

1. Print out your moth mask template and carefully cut it out
2. Find some recycled card such as an old cereal box and draw around your template
3. Cut it out once more, taking special care with the eye holes. Ask an adult to help you
4. Decorate your mask using coloured pens, crayons, glitter, leaves or pretty much anything you like! (Don't forget moths have symmetrical patterns meaning that the wings on one side are a mirror image of the wings on the other)
5. Using sticky tape, attach a lollipop stick to the back of your mask at the bottom so that you can hold the mask up to your face and pretend you are a moth!
